## 2,000 KILLED AND WOUNDED IN RIOT

### Terrible Conflict Between Soldiers and Workmen.

STREETS FLOODED WITH BLOOD

**Lodz, Russian Poland, Is Scene of One of the Most Horrible Riots in the World's History, "Red Sunday" Being Outdone.**

Lodz, Russian Poland, June 26—Yesterday, Black Friday, in Lodz, surpassed all the horrors of "Red Sunday" in St. Petersburg. While it is not yet possible to ascertain the exact number of the victims, estimates place the killed and wounded as high as 2,000.

The troubles here were initiated by the social Democrats and Jewish bunds, who determined to avenge their comrades killed in the rioting on last Wednesday.

Thursday the feast of Corpus Christi passed off quietly, but during the night workmen attacked the patrols. In this fighting two officers and seven Cossacks were killed. One of the latter was shot by a girl of 13 years.

At dawn Friday commenced a day of terror. The city was given up to bloodshed. Anarchy and fierce street fighting prevailed all day. Barricades were hurriedly constructed in the Jewish quarters at dawn. Men climbed to the roofs of houses, cutting telephone and telegraph wires to use for entanglements in the streets, while others cut telephone and telegraph poles to use them in strengthening their barricades which had already been constructed and in building others.

Early in the day two bombs were thrown from the crowd into the barracks, killing or wounding twenty soldiers. This started the shedding blood, which continued until after the darkness.

At 11 o'clock all the factory hands struck, and flocked into the streets.

Cossacks, dragoons and infantry charged the dense, surging mobs time after time, firing volley after volley into the serried mass. The rioters later replied with revolvers, while their comrades on roofs and in windows joined in the fusillade. Some dashed vitriol from the points of vantage on the troopers in the streets below.

The burning fluid drove its victims into a frenzy, and led to scenes of a terrible character. Fighting continued throughout the day, and only diminished in its intensity at nightfall, when the city was plunged into utter darkness as practically all the street lamps had been destroyed. Even then occasional volleys and isolated rifle shots were heard in different quarters, the troops having received orders to shoot any person appearing in the streets.

The dead were carted off to the cemeteries in military wagons, the troops acting as undertakers. But this morning many dead and wounded were still lying in the streets and court yards.

Terrible, indeed, is the plight of the wounded, for medical aid is unobtainable.

There was a renewal of the bloodshed this morning. A regiment of dragoons and one of infantry have been ordered here from Warsaw.

The casualties up to noon today add 18 killed or wounded to yesterday's appalling total. So far as yet ascertainable, one hundred and thirty persons were killed outright during the fighting of Friday and forty-one more died in the hospitals during the night.

Of the wounded, 320 sustained only slight injuries, which were attended to on the spot by the ambulance surgeons. All the hospitals of the city are filled to overflowing and owing to the insufficient number of beds, many of the wounded persons are lying on the floors. All the shops and stores are closed, and business is at a complete deadlock. The rioters this morning attempted to set fire to the government offices, but were scattered by a strong force of troops.

The streets are heavily patrolled by Cossacks and infantry. A workman was murdered in the streets during the night for refusing to strike.

**Anarchist Sentenced to Death.**

Warsaw, Russian Poland, June 26—M. Okjr, the locksmith who threw the bomb into the Praga police station March 26, injuring six policemen, has been sentenced to death. The workmen threaten a general strike as a consquence and further serious disorder is anticipated.

### NEWS FROM THE FAR EAST.

**Nothing of Importance has Occurred in Manchuria.**

General Oku's Headquarters in the Field, June 22, 10 a. m.—(Delayed)—Nothing important has occurred recently except daily skirmishes between the outposts of both armies. Hot weather has arrived and General Oku's center army has been newly clothed in khaki.

**Russian Cruiser at Jubitul.**

Jibutil, French Somaliland, June 26.—The Russian auxiliary cruiser Dnieper, which on June 5 sank the British steamer St. Kilda in the China sea, arrived here today.

**Japs Raise Sunken Cruiser.**

Tokio, June 24.—11 a. m.—The Japanese commander at Port Arthur reports that the Russian armored cruiser Bayan has been successfully floated today.

### FLYING NORWAY'S FLAG.

**Ship Clears New York Harbor with Tri-Color Hoisted.**

New York, June 26.—Captain Nilsen, commander of the Norwegian ship Tjomo, has demonstrated his patriotism and recorded his good ship as the first to clear this port with papers from which all reference to Sweden had been eliminated.

The biggest Norwegian flag Nilsen could find was flying from the masthead when the Tjomo passed down the bay. Captain Nilsen passed Monday last and showed his patriotism by ignoring the Swedish consulate until the customhouse officials made him go there and enter his ship. Then he went through the formality of presenting his papers to the consul and allowing the ship to pass under the consul's control.

The captain decided to make another effort at recognition when he visited the consulate to get his papers back and obtain his clearance papers. He sought Vice Consul Hansen and the latter filled out the papers but the captain, before signing carefully erased the word "Sweden" and the consul, himself a Norwegian, did not argue the question. He allowed the erasures to stand, signed the papers as many times as was necessary, and then shook hands with the skipper.

### DISCUSS PANAMA SITUATION.

**Confidential Agent of Columbia Confers with Secretary Taft.**

Washington, June 26.—Senor Enrique Cortez, confidential agent of the Republic of Colombia, had an audience with Secretary Taft today and discussed in a general way the relations of his country and the Republic of Panama. Although nothing definite was proposed relative to the assumption by Panama of a part of the foreign debt of Colombia, it is understood that such appropriation may be made later.

Secretary Taft has arranged another meeting on his return from New England with Senor Cortez and Senor Mendoza, the recently appointed Colombian minister to the United States. It has been stated that Colombia's debt amounts to $32,000,000 and that the amount it desires Panama to assume aggregates $2,000,000.

Senor Cortez asked to be excused from discussing the details of his mission at this juncture.

**Train Robber Convicted.**

Philipsburg, Mont., June 26.—George Hamond, the Bear Mouth train robber, has been convicted on his second trial in connection with the famous hold-up. The jury fixed his setence one year. Railroad officials were much disappointed over the verdict.

## FATAL MOTOR CAR WRECK IN GOTHAM

### Automobile Runs Into An Iron Trolley Pole.

ONE KILLED AND SIX ARE HURT

**Big Gasoline Tank Explodes and Was Blown to Atoms—Accident Occurred in Front of Cemetery Gate.—Policeman Run Down by Auto.**

New York, June 26.—One man dead, three seriously injured and three others cut and bruised is the result of last night's automobile accident in Jerome avenue, near Two Hundred and Twentieth street. The wreck occurred before the gate of Woodlawn cemetery. Paul Foster, whose skull was fractured, and who died soon after reaching the hospital, is said to have been a native of Boston.

Like many other serious motor accidents in and about New York recently, this one is said to have followed the use of the car without its owner's knowledge or permission. The chauffeur had one leg fractured and his right ear was almost torn off. Three other men had broken limbs and were severely cut.

Seven persons were in the machine. They had visited the empire city track to witness a 1,000 mile race against time. On starting home the car sped away into the avenue, but the driver miscalculated a turn and dashed headon into an iron trolley pole. So hard was the impact that the pole was broken in two, the machine was wrecked and the gasolene tank exploded.

The [illegible] hurled in all directions. They were picked up by other motorists and hurried to a hospital.

About the same hour, a collision occurred on Ocean Park way, Brooklyn, between a motor car and a mounted policeman. The latter sustained some broken ribs and possibly a fracture of the skull. The chauffeur was arrested afterwards.

**Indiana Man Arrested in Gotham.**

New York, June 26—Charging him with being concerned in the murder of "Eat-'em-up-Jack," McManus in the Bowery on May 2, the police have arrested a man who says he is W. A. Wilke, a chauffeur of Richmond, Ind. Wilke said he came to New York a week ago in search of work after working in several automobile manufactories in Ohio and Indiana. He stopped at a Bowery hotel and said he had just found work when he was arrested. Wilke declared that he never knew McManus and has asked the police to inquire of his friends in Richmond, Ind. He was carrying a revolver when arrested. McManus who was a notorious East Side character, was found unconscious in the street with his head crushed in and died a few minutes later.

**Shot Down for Defending Sister.**

Jasper, Ga., June 26.—About 5 miles north of this place a man by the name of Cross shot and fatally wounded Lawson Smith. Cross married Smith's sister. They were all at work near the home of Cross when Cross, it is alleged, began to abuse his wife. It is said Smith interfered, and Cross shot him with a double barreled shotgun, the load taking effect near Smith's heart. He is reported this morning to be dying. Sheriff Taylor and a posse are in pursuit of Cross. He is said to be going in the direction of Docktown. The community is very much wrought up over the affair. Smith is also married.

**Fireman Killed in Wreck.**

Blue Ridge, Ga., June 26.—Two Louisville and Nashville trains met in a head-on collision near Farmer, Tenn., on the famous "loop," killing Fireman Napoleon Franklin of the southbound engine, and injuring Fireman Albert Desmond, of Blue Ridge, of the southbound engine. The two engines and six cars were badly wrecked. Conductor J. H. Moore and Engineer Mike Glenn were in charge of the southbound train.

### WILL RIGIDLY INVESTIGATE.

**New York Authorities to Probe Equitable Company's Affairs.**

New York, June 26.—Definite statements are made by the Herald today that in addition to the proceedings which are expected to be inaugurated by Attorney General Mayer and District Attorney William Travis Jerome, Paul Morton, chairman of the Equitable Life Assurance Society, with full knowledge and approval of the owners, Thomas F. Ryan will, by his own investigation of affairs, delve deeper than either the Frick committee or state superintendent of insurance, Mr. Hendricks. Most of the charges against certain very rich men are hinted in connection with this development. They have not, heretofore, figured prominently. One of them is, says the Herald, currently reported to have accumulated $8,000,000 in a few years while another, an appraiser, amassed more than $1,000,000 in two years. While some of these matters were only indirectly connected with the society's affairs, it is intimated that various documents are being certified, while accounts and occurrences will be used as a basis for affidavits in court proceedings. Wherever, the Herald declares, money is found to have been obtained by individuals on syndicate operations, on bonuses to secure loans and the like, it is asserted that actions will be gun to collect the amounts to which the society was lawfully entitled had nothing been diverted from its treasury.

### NEW OFFICERS ARE ELECTED.

**Georgia Federation of Labor Adjourns After Successful Meeting.**

Atlanta, June 26.—One of the most successful meetings of the Georgia Federation of Labor came to a close Friday at 1 o'clock at the hall of the Atlanta Federation. Much enthusiasm was manifest from start to finish of the convention, and it was pronounced by many to be a longed-for accomplishment, in that it had brought closer together than ever before the trained labor forces of the state.

The following officers were elected:

M. J. Heagarty, of Savannah, president; W. C. Puckett, of Atlanta, secretary-treasurer; T. F. McNally, vice president, fourth district; O. E. Barlow, vice president; fourth district; J. B. Hewitt, vice president, fifth district; J. B. Hewitt, vice president, fifth district; F. H. Weir, vice president, sixth district; R. M. Long, vice president, seventh district; D. N. Vance, vice president, ninth district; D. P. O'Connell, vice president, tenth district.

W. S. Weir, of Atlanta, son of Mr. A. M. Weir, of Decatur, the well-known writer whose nom de plume is "Sarge Plunkett," was elected delegate to the American Federation of Labor, which meets in Pittsburg in a short time.

**Officer Shot by Negro.**

Jacksonville, Fla., June 26.—Policeman Horace G. Tucker lies in St. Luke's hospital suffering from a dangerous wound in the neck received from a revolver in the hands of a negro whom he had under arrest near the union station. The negro was arrested on a charge of being drunk and asleep, and while the officer was waiting with him at the patrol box the shot was fired and the prisoner made his escape. No one knew the negro, and no one saw the shooting, so it is impossible to find the negro. Seven negroes are in jail on suspicion, but only one has been taken before Policeman Tucker. This negro was released, as Tucker says he is not the one wanted.

**Frenchman Weds American Girl.**

Paris, June 26.—The marriage of Prince Henry Galard de Bearn ed de Chalais to Miss Beatrice Winans, a daughter of Mr. and Mrs. Ross Winans, of Baltimore, was celebrated at noon today in the Church of Ste. Clotilde. There was a large and fashionable attendance including Ambassador McCormick and many members of the old French aristocracy. The groom is the head of the ancient family of Bearn et de Chalais. The prince and princess received many beautiful and costly presents.

## LOOMIS GOES AFTER PAUL JONES' BODY

### As Special Ambassador From This Government.

ALSO HAS ANOTHER MISSION

**Assistant Secretary of State Sails for Europe on Important Business Other Than Receiving Famous Admiral's Remains.**

New York, June 26.—On a secret mission for the state department for which he was commissioned by President Roosevelt, Francis B. Loomis, assistant secretary of state, sailed for Southampton today on the steamer Philadelphia.

Concerning the mission, Mr. Loomis would only say:

"I am not only going as special ambassador to receive Paul Jones' body, but also have been commissioned by the president to perform a secret mission for the state department while abroad. I must decline, positively, to state what my mission is."

"Has it anything to do with peace?" he was asked.

"I can say nothing," was his reply.

Mr. Loomis said that he expected his secret mission would prevent him from returning with the warship squadron which will bring the body of Admiral Paul Jones, as he had expected to do, but that he had hoped to return in about a month. Mr. Loomis added that the exercises attending the departure of the body of Admiral Jones from France would probably be held on July 7 or 8 in the American church at Paris.

General Horace Porter, the retiring ambassador to France, Mr. Loomis said, has spent a large amount of his own funds in the search and identification of the body, and has not been reimbursed by the United States government.

Washington, June 26.—The designation of Francis B. Loomis, assistant secretary of state, who sailed from New York today for Europe, as a special ambassador of the United States, formally to receive from the French government the remains of John Paul Jones, will conflict in no respect with those of the retiring ambassador, General Horace Porter. The appointment of a special ambassador was made as a mark of particular respect to the great officer and as a tribute of honor to the French government for the interest it has manifested in the body. Mr. Loomis will not return to the United States with the remains of John Paul Jones. So far as they are concerned, his ambassadorship will terminate with the reception of the body and its transfer to the American squadron. He has been commissioned by the president, however, to make an investigation of the business methods of th evarious diplomatic posts of the United States in Europe with a view of bringing about such reforms as may be suggested by the inquiry into his own experience in the state department. It is expected that this mission will occupy him for perhaps two months.

**To Purchase Revere's Home.**

Boston, June 26—Prominent citizens of Boston have undertaken a movement looking to the purchase and the preservation of the home of Paul Revere, which is situated in North Square in this city. It is intended that the building, which is now used as a tenement house, will be restored to its original condition as nearly as possible. The house was built prior to 1681, and is the oldest in Boston, still standing in its entirety.

**Illinois Mines to Close.**

Springfield, June 26.—The Illinois coal operators have declared their contract with the Illinois Mine Workers' union null and void after June 30, on which date all mines in Illinois will close for an indefinite period. The meeting developed a great display of feeling against the miners' union. Sixty thousand men will be forced out.

# GAINESVILLE IS PROPER LOCATION

## Say the Majority of the People of the State.

### THE PRESS AND PUBLIC SPEAK

**The People Ask Their Representatives to Place the New State University at Gainesville—There is No Uncertainty in the Tone of the Press.**

In The Times-Union of Monday is an article from W. C. Sale of Plymouth, Orange county, entitled "The Majority Rule," which speaks the sentiments of the people and we publish it in full:

Editor Times-Union: The majority rule. A majority of the Legislature voted for the Buckman bill, so it became a law.

I believe no one will be bold enough to say that the University should be located where a majority of the people of Florida do not want it located.

Every fair-minded citizen admits that it should be located where a majority of the people want it located.

It is a conceded fact that nine times out of ten a newspaper speaks the voice of a large majority of the people of the community in which it is.

That being true, where is that man who has brass enough to say the University should not be located at Gainesville? One of Pensacola's leading newspapers favors Gainesville, as also does one of Tampa's leading papers. The Orlando, Bartow and practically all the South Florida papers favor Gainesville.

A Jacksonville man published a letter in The Times-Union strongly favoring Gainesville. All this goes to prove that a majority of the people favor Gainesville. Outside of Lake City there are very few men, or newspapers, who want the University located at Lake City, that is, judging from what has been contributed to these columns. Certainly these columns the last few days have been full of letters favoring Lake City. Look and see where they are from. Lake City, of course, and very few from anywhere else, while letters and editorials in favor of Gainesville come from one end of the State to the other, from Pensacola to Tampa.

That speaks for itself and shows where the people want the University located.

If the Board of Control abide by what a majority of the people of Florida want, they will decide in favor of Gainesville, and it won't take but a few minutes to do it, either.

I need not say anything about the advantages Gainesville offers, as they have been fully explained. Lake City seems to think that the State buildings there are going to be thrown away if the University is not located there.

Never fear about that—one of the other institutions can be located there.

Lake City seems to think the question is not "Where shall the University be located?" but "Shall it be moved from Lake City?" I don't understand why Lake City has the new university yet, any more than Gainesville has it now. I think Lake City had better wait until the Board of Control locates it there before they say they have it. The people should be grateful to The Times-Union for so kindly contributing these columns for the discussion of this question, whereby the desire of the majority of the people of Florida has already been made known. W. C. SALE.

# WHY DOCTORS FAIL

## AND MRS. PINKHAM SUCCEEDS

**Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless**

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequaled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases.

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of America than the family physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

## MELROSE EVENTS.

**Grand Picnic at the Springs—Steamer Running—Other Items.**

Melrose, June 26—Mr. and Mrs. P. L. Carver left Tuesday for Asheville, N. C.

The many friends of Miss Lizzie Mizelle will be pleased to hear that she has been granted a first grade teacher's certificate and been appointed principal of the Citra school.

Miss Eva Priest is spending the week at Orange Heights, the guest of Mrs. J. B. Curtis.

The steamer Alert has been put in first-class order in and outside and will resume her trips to Waldo on Tuesday.

Mr. and Mrs. H. von Noszky expect to leave for Chick Springs, S. C., the first week in July. They expect to be away about two weeks or more.

The Union Sunday school picnic held at the spring near town on Friday was a great success, the threatening weather notwithstanding. The Orange Heights Sunday school arrived in great state, preceded by a marshal on horseback followed by very nicely decorated wagons and buggies. A procession was formed at the Methodist church, and after being photographed by Miss F. Morris the march to the spring was taken up. The Melrose children were blue and white badges, while Orange Heights had orange as their color. On arrival at the spring the exercises were begun, consisting of a Maypole drill by the Melrose school, a hoop drill by the Orange Heights school and recitations by some of the children. Hon. N. E. Baker and C. W. Baldwin addressed the meeting during the day. A bountiful basket dinner was enjoyed by all and the afternoon was passed in games, swinging, etc., until the rain broke up the pleasant gathering.

Rev. L. D. Geiger, D. D., from Apopka, preached to a large audience at the Baptist church on Sunday morning.

**Will Cure Consumption.**

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of anyone using Foley's Honey and Tar and not being satisfied. J. W. McCollum & Co.

## STRANGE ACCIDENTS.

**A Broken Neck as the Result of the Turn of a Foot.**

"The man who fell out of bed and broke his neck will scarcely attract more than passing notice," said a thoughtful man, "for there have been many cases equally remarkable. I recall one case where a man's neck was broken by a very slight turn of his foot. He attempted to 'catch himself'—that is, to preserve his balance—and the effort was of such violence that he broke his neck. Many men have broken their necks by a sudden stumble and a fall on the sidewalk or by being knocked down by some hurrying pedestrian, or by a street car or a vehicle of some sort.

"It is not at all uncommon for a policeman, with no intention of doing more than subdue an unruly member, to break an offender's neck by rapping him over the head with his club. Sometimes the fall which follows and sometimes the blow breaks the neck of the offender. Sometimes a sudden, violent motion of the head, a quick jerking motion, the kind we make when dodging, will break the neck.

"I recall a case where a man threw his neck out of joint without breaking it by throwing his head to one side in an effort to dodge a bullet fired at him at short range. The bullet passed through the rim of his hat. Even after that he carried his head tilted over the right shoulder and was never able to straighten it."—New Orleans Times-Democrat.

**Tax on Babies.**

Extreme hot weather is a great tax upon the digestive power of babies. When puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. Sold by W. M. Johnson.

**The Property Man's Troubles.**

The company was playing "Romeo and Juliet" the other day, and in the balcony scene a cannon went off. The property man was sent for, who explained that it was a cannon which should have gone off in the performance of "Henry V." two days before. That property man was spoken to more in sorrow than in anger.—From an Address by F. R. Benson in London.

**No Secret About It.**

It is no secret that for cuts, burns, ulcers, fever sores, sore eyes, boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Tex. 25c at all drug stores.

**The Lightning Cure.**

"Here's a story of a man who was cured of rheumatism by being struck by lightning."

"I'll risk de rheumatism every time," said Brother Dickey. "I don't want no doctor what's as quick as dat!"—Atlanta Constitution.

**His Job.**

"What's Stevens doing now?"

"Nothing."

"But I was told he was holding a government position."

"He is."—Milwaukee Sentinel.

### BAPTIST PREACHER SHOT DOWN.

**He Worked Negroes on His Farm in South Carolina.**

Florence, S. C., June 26.—H. D. Granger, a local Baptist Preacher, was shot from ambush and killed while working on his farm near here. He lived in the district known as "the Dead Stretch," where it is said that negroes are not welcome, and the only explanation of his death is in the fact that he hired two negroes to work on the farm, and protected them, even allowing them to sleep on his premises. Granger was respected, and had many friends, but appears to have angered a certain element that had made it a risky thing for a negro to enter the "dead stretch," which is said to lie between Bayboro and Loris.

Bloodhounds have been sent for, and the authorities are evidently intending to track the assassins if possible. Coroner Burroughs, of Florence, has gone to the scene of the tragedy.

**Killed by Passenger Train.**

Albany, Ga., June 26.—Burton L. Weston, a prominent business man of this city and a member of one of the best known families in southwest Georgia, was struck by an incoming passenger train on the Central of Georgia railway and died three hours later. The accident occurred at the intersection of North and Monroe streets, Weston, who was hard of hearing, was on his bicycle hurrying to the side of his wife, who is sick. As he turned across North street he was struck by the locomotive of the passenger train and hurled high into the air, sustaining frightful injuries. The funeral will occur tomorrow.

**30 Drowned by Boat Capsizing.**

Vigo, Spain, June 26.—Advice received here today from the Minho river, which empties into the Atlantic ocean at Gambienha, say that thirty persons were drowned yesterday by the capsizing of a bark which had arrived in the river from Portugal.

**That Tired Feeling.**

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes: "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." 50c. Sold by W. M. Johnson.

**John Carpenter Hanged.**

Tuscaloosa, Ala., June 26—John Carpenter, a negro, was hanged at this place for the murder of Stewart Champion, superintendent of the Stewart plantation, on April 10 last. Carpenter, who was an employe on the plantation, had a grudge against Champion, and shot him in his own home by night, firing through a window as Champion sat before the fireplace with his baby in his arms. The baby was slightly wounded, but Champion was killed.

**Officers Charged with Conspiracy.**

Chicago, June 26.—Charges of fraud and conspiracy on the part of officers of the Ohio Consolidated Oil company are made in the superior court here by Francis A. Harper, a stockholder, who declares money belonging to the company has been illegally used by the officers and promoters of the corporation. A receiver is asked for the complaintant, who declares "officials hold office in other oil companies which have conflicting interests, and that it is impossible to managee the business with fairness to the stockholders.

**Stimulation Without Irritation.**

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irratating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. J. W. McCollum & Company.

**Canal Engineers to Meet.**

Washington, June 26.—A meeting of the consulting engineers of the isthmian canal commission was called today to meet in Washington on Sept. 1, to review the plans for the construction of the Panama canal and make recommendations to the commission. The consulting engineers are advised to go to the isthmus if they deem it necessary and minority reports requested to be made. There are 14 members of the consulting board, a number of them being foreigners.

Some day you will get a bad scare, when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure, for all bowel and stomach diseases, such as headache, biliousness, costiveness, etc Guaranteed at all druggists'; only 25c. Try them.

**China's Boycott Is On.**

Victoria, B. C., June 26.—Victoria's 6,000 Chinese are working energetically to aid the boycott declared by their nation against United States goods. A fund is being subscribed to aid in reimbursing coolies who lose wages at Chinese ports by their refusal to unload steamers carrying United States goods. The local Chinese moreover will boycott United States goods and refuse to work for any one who is a United States citizen.

## How to Get Well.

Every organ of the body is directly connected with the brain by nerves. The nerve cells in the brain generate nerve force—power—and send it to the organ through these nerves, and this nerve-force gives life and action. The organs work perfectly when there is sufficient nerve power. Lack of nerve force weakens the action of an organ and it works imperfectly—becomes sick.

Two-thirds of all sickness is thus due to weak or deranged nerves; it is therefore advisable to take Dr. Miles' Restorative Nervine, because it makes nerve energy.

When you cure the nerves you remove the cause, and that's the way to get well.

"Dr. Miles' Restorative Nervine cured me of nervous prostration after every other effort had failed to give me relief. My trouble seemed to begin with a general loss of strength and a breaking down of the nervous system. I suffered from headache, constipation and fluttering or palpitation of the heart. My appetite failed and I was so nervous and restless that I could not sleep at night. My husband, who is a druggist, brought me a bottle of Nervine. It helped me from the start, and I continued using it until I had taken six bottles. My health was completely restored."

MRS. SILA M. MOURHOUSE, North Adams, Mich.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

## BELIEVES IN DIVIDING.

At last the Governor has made his appointments of that Board of Control. From the members of the board we know, as a natural standard, it is in our opinion an excellent selection throughout. So far, so good! It is now up to this board to make a good selection for the "place of permanent abode" of the two colleges. We nominate GAINESVILLE for the male and TALLAHASSEE for the female institutions.—The Floridian, Jacksonville.

There are now so many live wires in Greater Tampa that all the small places about the city are liable to get electrocuted.

Thousands of acres of land in New Mexico have been stolen by fraudulent entries. Of course they are the best lands in the whole domain.

Bro. Kendall of The Tropical Sun had a narrow escape from getting caught "lifting stuph." But he gave the proper credit in Saturday's paper.

Spain has slated for the new minister of war a man named Weyler. Seemed as though there was a General Weyler mixed up in Cuban affairs a few years ago.

The game of bluff going on between France and Germany reminds one of the prize-ring blowers in this country. It is only a little notoriety they are seeking.

H. W. Long, elected president of the Good Roads Association, is a most excellent man for the honor. He is thoroughly in earnest in the work. J. W. White, the secretary, is another good selection. With pushing officers the association ought to accomplish much good.

It now transpires that the cabbage snake, which did so much damage to the Florida cabbage crop, was only a myth. The department of agriculture has investigated the matter at Washington and finds that the alleged snake is nothing but the cabbage hair worm, which would not injure any if eaten raw, boiled or fried.

In view of the character of certain letters that are being sent out from Lake City to The Times-Union, the following from The Punta Gorda Herald seems a most happy and opportune suggestion: "Nobody has advised throwing away the $255,000 investment which the State has at Lake City. Use it for the lunatic asylum and put the penitentiary at Chattahoochee."

Mark Twain, the noted humorist, is one of the most brilliant men in the literary world. His humor is refined and does not consist in making blunders or abuse of the English language. His strong point is in going from the sublime to the ridiculous in his writings or in his addresses. Unconscious, in many of his writings he will give a beautiful description of some grand cathedral in one paragraph, while in the next he will produce the most brilliant flow of sarcasm. Mark Twain is a highly educated gentleman of the keenest conception.

## RELIGIOUSLY RIPE.

The following from The Palatka News will be read with interest by most of our people who have watched the controversy on the University question:

"The preachers of Lake City have issued a queer circular. It is one of the holier than thou sort that illy becomes men of that profession. But they want the State University, and want it bad, and have been led into blowing their own horn instead of following the scriptural injunction and letting another do it. But—perhaps another couldn't.

"Among the reasons advanced by these men why Lake City should have the school are these:

"'Virtually every member of Lake City's unmarried society is a consistent member of some church.

"'Every councilman is a temperance man and a Christian.

"'The young people's social functions are invariably chaperoned by Christian matrons.

"'Twelve white ministers of the gospel reside within or have part of their work within the bounds of the city.'

"Then this:

"'Can this be said of any other city in Florida?'

"The News might say it of Palatka. It has said some fishy things in its day. But it declines until it can take a religious census of the council and get one or two of our young men in a corner and put some leading questions to them.

"Palatka would like the University. We could use it in our business. But here is one editor who would sooner have the Charley Horse in his right arm forever, and have his fur-lined tongue cleave to the truth, than to assist in deceiving the public in a hopeless case.

"Palatka is a good town, but religiously speaking it is not ripe enough to pluck. There is still work for the clergy and the newspapers."

## STATE PRESS COMMENT.

A Pensacola official has been bound over for embezzling a few thousand. And yet some say that the Escambia capital is not up-to-date.—Palatka Times-Herald.

The location of the two new universities is creating some discussion among the press brethren. If left to us to decide, we would say Gainesville and Tallahassee.—Calhoun Democrat.

Friends of Professor Tom F. McBeath will urge his appointment as a member of the faculty of the University of Florida. The faculty should be made up of just such good material.—Bradford County Telegraph.

Mr. Appleyard wants the State University in Lake City, but a big majority of the State press is about to decide on Gainesville. Gainesville is one of the best towns in the State of Florida and it is hoped by a big majority in this section that she will win in her race for the State University.—Lake Butler Star.

The appointment of T. B. King of Arcadia, by the Governor to a member of the Board of Control, was a wise and timely one. Mr. King is a broad-minded, public spirited man, who will let no element of personal feeling or favoritism enter into the matter of college location. All of the aspiring cities can rest assured that they will get a square deal at the hands of T. B. King of Arcadia.—DeSoto County News.

The newspapers are very properly urging that the Board of Control select Prof. Tom F. McBeath of Gainesville, as one of the faculty of the State University. It is suggested that he be made Dean of the Normal Department. Why not put him in the chair of English belle-lettres—rhetoric and English literature? For the Lord's sake, let us have correct English taught in our schools and colleges! It is more needed than anything else, and Prof. McBeath is the very man to teach it. Give him a big salary to prevent some other State from taking him away from us.—Punta Gorda Herald.

## RAILWAY RATES.

Governmental regulation of railway rates continues to be a subject of public agitation in several parts of the country. In Georgia, where the present rates have caused dissatisfaction for more than a year, the Macon Chamber of Commerce has called a general convention of trade bodies to discuss the situation, to meet June 29. In Illinois the State board of warehouse commissioners conducted public hearings on freight rates at the request of shippers who are seeking reductions. Final arguments will be made July 11. The roads affected have made preparations for similar hearings in Missouri and Kansas. In Washington and Wisconsin the discussion turns on the fitness of men chosen for the newly created regulative commissions. In the former State H. A. Fairchild of Bellingham, John S. McMillan of Roche Harbor and John C. Lawrence of Garfield have been named by Gov. Mead. In Wisconsin Gov. LaFollette named Prof. B. H. Meyer, Halford Erickson and N. P. Haughen.

The new Board of Control of the State colleges will hold its first meeting tomorrow, June 28th.

### Shot at Friend; Killed Self.

Chicago, June 26.—Frank R. McCammon, waiter, believing that he had shot and fatally wounded a friend and was liable to arrest, committed suicide today. McCammon had quarraled with his wife and then two friends interefered. He shot at one of them named Marshall. Marshall was unhurt but McCammon believing otherwise, turned the revolver on himself, dying instantly.

### Irving to Tour America.

London, June 26.—A contract between Charles Frohman and Sir Henry Irving for a 14 weeks' tour of the latter in the United States, beginning in January, has been signed here. The tour does not include California, as previously contemplated.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

# ATLANTIC COAST LINE RAILROAD

## Will Give Gainesville a Through Train Service.

### NO CHANGE TO JACKSONVILLE

**Trains Will Run From Ocala to Gainesville, Alachua and Jacksonville—Two Trains From Gainesville Each Day. To Jacksonville and Return.**

The talk in regard to Gainesville being put on a through service over the Atlantic Coast Line gives promise now of being put into practice, and it is stated that the next schedule of this line will materially effect the running of trains from this city and place Gainesville on a through service between Jacksonville and St. Petersburg. This change will be brought about by utilizing the Jacksonville & Southwestern, which will be a new division of the Atlantic Coast Line.

Trains will leave Jacksonville over the new division for Alachua to Gainesville and Ocala, going from the latter place over the same line as now used for through trains between Jacksonville and St. Petersburg.

By this new arrangement the delay at Rochelle and Palatka will not be a source of annoyance to people from this city, and the distance from Gainesville to Jacksonville will be made shorter. Another feature will be that passengers can leave Gainesville in the morning over this line, have a day in Jacksonville and return the same evening.

It has been suggested by some of the business men of this city that if the Coast Line would only get a new right of way through the city that the line could be straightened and made better for the handling of through traffic.

This new order of things may not be put in working order for some time, as there are many changes to make, but a large force of men are now engaged putting up telegraph lines and making other alterations for the new through trains.

C. W. Wells, who has the contract for the grading and putting in the Y at Alachua to make the connection with the new route from South to North over this line, was in the city yesterday to purchase shovels, wheelbarrows, etc., to push the work, so that it will be ready for the traffic from the metropolis of the State to St. Petersburg.

**A Modest Reply to the Inquiries Recently Made.**

Editor Sun: An honest public will unanimously affirm that they are at all times granted a fair and courteous audience by the Board of Public Instruction and myself as Superintendent. This much is our duty and pleasure. We endeavor to do what is right and to the best interest of our county. We do not expect to please all people; Christ failed to do so. We formulate rules and orders according to our ideas of law and justice.

Knowing that there would be only a few summer schools, and also that there would be a great number of applicants for these few places, an order was adopted giving preference to teachers who have taught in the county this year. The order, however, authorized the appointment of any teacher of good character who had taught out of this county, but on the express condition that he or she be required to teach the full term. We do not propose to allow new comers to deprive home teachers of work during the dull season, and go away and leave but three months' work for some of our teachers.

Some tramp teacher, sore-head or disgruntled individual who is doubtless piqued without cause and is spoiling with an extra charge of self-importance, takes issue with the School Board and myself on the above order and gives us a broadside in the columns of your paper on the 23d instant, under the pretentious masque of "Fair Play." It is not surprising that he, she, or it, whoever or whatever it is, should select such an attractive nom de plume. That which is spurious or inferior invariably assumes a name above its type or order. When the sugar-coating is removed the imitation is discovered, and so it will be when the beautiful masque is struck from that saphead that did not know any road other than the columns of a newspaper to the office of the School Board or County Superintendent. "Fair Play" is malicious and false. The article was not "seeking information," but was simply an attempt to misrepresent the School Board and myself and prejudice the public against us.

If this was not the intention, why did not he attend a School Board meeting and ask information? These gentlemen would have cheerfully rendered the service. I hope hereafter this meddlesome knight of the quill, when criticising the School Board or myself, will feign true manhood and sign his real name.

J. L. KELLEY.

### BASEBALL TODAY.

**Gainesville and Waldo Will Meet on Local Diamond.**

A lively time is promised at the ball park this afternoon, when the Gainesville and Waldo teams are scheduled to meet in an effort to show each other how the national game is played. The local team will be composed of good material and claim they will teach their opponents a few points in the business. The game will be called promptly at 3 o'clock; admission 25 cents.

The local team will be composed of the following: Kennard, p; Futch, c; A. Graham, 1b; Tison, 2d b; Denton, 3b; S. Graham, ss; Dell, lf; Carter, cf; Legrande, rf.

### Found a Cure for Dyspepsia.

Mrs. S. Lindsay of Fort William, Ontario, Canada, who has suffered quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these tablets, get well and stay well? For sale by all druggists.

### JUDSON JOTTINGS.

**Happily Married—Personal and Other News Items.**

Judson, June 26.—J. N. Wood is sick with typhoid fever. They removed him to his father's, Leroy Wood, at Double Sink. His brother, R. E. Wood, is attending to his store and postoffice in his absence. We hope that he will soon recover from his fever and be back to his post again.

Messrs. Cole, Hubbard Weeks and Raymond Sanchez, three of Judson's young men, went on a fishing trip Friday. They bought up a lot of cold meats for fear they would catch no fish.

Watermelons are plentiful now—5 to 10 cents each.

The drouth has been broken and we are having all the rain now that our hearts could wish for.

Harley Cason and wife of Rocky were visitors here Friday.

C. W. McElroy, our representative, and wife were here Friday shopping.

The marriage of Mr. Simeon Hussey of Newberry and Miss Lou Davis of this place occurred Sunday. They expect to make their home in Newberry. The bride is the daughter of Mrs. E. E. Davis, who lives near this place, her father being the late B. J. Davis. The groom is a graduate of the dental college of Atlanta. Both have our best wishes.

### Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon, as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists.

### Favors Gainesville.

Prof. Wm. W. Frost of Stetson University was in the city on Monday in the interest of that excellent institution of learning located at DeLand, incidentally to visit Attorney G. W. Scofield, a graduate of the law school, now located in this city.

Professor Frost is instructor of English in the University, and has been visiting many cities in the State during the past few weeks. He says Stetson will have between 700 and 800 students the coming year. The question of the location of the State University brought forth a strong endorsement for Gainesville from the Professor, who said he thought this city was much preferred to any other in the State. He was pleased with Gainesville and its surroundings.

### Sprained Ankle, Stiff Neck, Lame Shoulder.

These are the common ailments for which Chamberlain's Pain Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by all druggists.

## "RANK AND FILE" WILL VOTE.

**Teamsters' by Referendum, Will See if Strike is To Continue.**

Chicago, June 26.—The "rank and file" of the striking teamsters were today given an opportunity to say whether the strike will continue or whether it will be called off and the men take their chances of getting employment.

At a meeting of the teamsters' joint council it has been decided to submit to the men on strike the latest peace terms received from the employers. proposition which the strikers will

The three principal clauses in the vote on are as follows:

The elimination of the express drivers from the strike settlement.

The maintaining of police and armed guards on the wagons after the strike is called off.

The right to wear a union button concealed.

It is said that the employers are inclined to take back a big perceptage of their old teamsters, but it must be on terms dictated by them and unless the teamsters surrender unconditionally, the fight will go on. Special meetings of the different locals involved will be called during the coming week for the purpose of taking a referendum vote.

## WOMAN REFUSED NEW TRIAL.

**Guilty of Murdering Her Husband She Must Hang.**

Kansas City, June 26.—Mrs. Aggie Myers, who was found guilty at Liberty, Mo., recently of murder in the first degree was today refused a new trial and was sentenced to be hanged on Aug. 11.

An appeal will be taken to the state supreme court. Mrs. Meyers was convicted with Frank Hottman, who was infatuated with her, of killing the woman's husband, Clarence Myers, a printer, at their home in this city in May, 1904. The crime was most cold-blooded. Hottman, who is now under sentence of death for his part in the crime, testified at the woman's trial, that she had urged him to kill Myers; had let him into her room on the night of the murder; had given her husband a sedative to put him to sleep, and then while he cried to her for help she first struck him over the head with a bed slat and then slashed his throat and back with scissors and razor. Hottman had first stunned Myers with a billiard cue.

Since her arrest Mrs. Myers has shown practically no emotion and when sentenced was passed today she smiled.

## GEORGIA LAWYER NAMED.

**As Assistant General Counsel for the Southern Railway.**

Washington, June 26—It is reported here today on unquestionable authority that within a few days an official announcement will be made of the appointment of Hamilton McWhorter, of Georgia, as assistant general counsel of the Southern railway system, with headquarters at Washington. Judge McWhorter has been here in consultation with President Spencer and with General Counsel A. P. Thorn, of the Southern railway system.

In this promotion Judge McWhorter becomes next to the highest official in the legal department of the Southern railway system.

As assistant general counsel of the system his headquarters will be at the general headquarters of the system in Washington.

### King Oscar Will Not Abdicate.

Stockholm, Sweden, June 24.—There is no foundation for the rumors circulating at Copenhagen and elsewhere of the probability of King Oscar abdicating in favor of the crown prince in consequence of the dissatisfaction of some factions with the government's pacific attitude in the crisis. No developments of importance are expected before June 27, when the debate will take place in the riksdag, and special point committee of the chambers will be appointed to report on the government's proposal for a settlement on the questions growing out of the disruption of the union.

### A Thousand Dollars' Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurnes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. J. W. McCollum & Co.

## DO YOU GET UP WITH A LAME BACK?

**Kidney Trouble Makes You Miserable.**

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Stop-overs of ten days, within final limit on all extended tickets, has been arranged on the return trip at Philadelphia, Baltimore and Washington.

A trip to New York can be taken in conveniently on side-trip rates of $4. Philadelphia to New York and return, good six days.

The Florida delegation will be personally conducted by James F. Taylor, traveling passenger agent of the Seaboard, Tampa, Fla.

For sleeper reservations or other information write S. C. Boylston, Jr., passenger agent, or A. O. MacDonell, assistant general passenger agent, Jacksonville, Fla.

### Cumberland Army Reunion.

Chattanooga, Tenn., June 26.—The executive committee of the society of the Army of the Cumberland has fixed as dates for the reunion of the society in Chattanooga Sept. 18, 19 and 20, 1905, the anniversary days of the great battle. The reunion of the Wilder brigade, the regular brigade and other associations in the army of the Cumberland will be held in Chattanooga on the same dates, railroads having granted a rate of 1 cent a mile.

### Acute Rheumatism.

Deep tearing or wrenching pains, occasioned by getting wet through, worse when at rest, or on first moving the limbs, and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Ill., writes, Feb. 18, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." Sold by W. M. Johnson.

### One Birth Every Five Minutes.

New York, June 26.—Births in this city at the rate of one every five minutes are recorded by the health department for the past week during which period 2,011 were reported. It was announced at the health department that the birth rate of New York city has now risen to about 31 per 1,000, and is higher than any other city in the United States. Five or six years ago, when there was so much talk about the race suicide, the birth rate here was only 26 per 1,000. Last year the rate was 30 per 1,000. The prospect now is that in 1906 it will be 32.

### Six People Overcome by Gas.

Chicago, June 26.—Six persons were overcome by gas today in a boarding house kept by Mrs. Katherine Maria at South Chicago. All were unconscious and it was at first feared none would recover. Physicians, however, succeeded in restoring all of them, and said all probably would recover except George Maria and Mark Markasich. The gas came from open jets in the kitchen stove.

### Breaks Automobile Record.

New York, June 26—Guy Vaughan, who started yesterday at the empire city race track at Yonkers in a second attempt to break the thousand mile automobile record had covered 850 miles at 9:40 a. m. This is two hours, four minutes and fifty seconds ahead of the record established last April by Charles C. Wridgeway, at the Brighton Beach track.

### Dying of Famine

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1 a bottle. Trial bottle free.

## CAN YOU SOLVE THIS?

**A Problem That Seems Simple, but That Will Invite Discussion.**

How much greater than three-fourths is four-fourths?

At first sight it seems an easy question, but put it to your arithmetical friends and you will probably find that it will divide them into two parties, one contending that the answer is one-fourth and the other as positively affirming that it is one-third, while both will be ready to prove the accuracy of their respective solutions.

The party of the first part (to use a legal phrase) may argue their point in this way:

Five shillings is the fourth part of a pound. If you have 15 shillings, or three-fourths of a pound, and somebody gives you another fourth part you have a sovereign—ergo, your four-fourths is one-fourth greater than three-fourths.

But this will not suit the other party at all, and they will proceed scornfully to point out that the argument is all wrong, since if you have 15 shillings and somebody is generous enough to add 5 shillings to it the donor is only giving you one-third of the amount you already possess (5 times 3 equals 15), therefore your sovereign is only one-third more than your 15 shillings.

It is a pretty problem, and expert accountants have been known to wrangle over it for hours.—London Answers.

## SCIENTIFIC FARMING.

**The Way Long Tongued Bees Saved Australian Clover.**

A clerk in the department of agriculture said:

"So you think that scientific farming is a bluff? You demand some illustrations of the good that is accomplished by the scientific method? Very well.

"When clover was first introduced into Australia it grew there beautifully, but it never seeded. The soil was all right. The climate was all right. What, then, was the trouble?

"A scientist studied the matter, and this is what he found:

"He found that the native Australian bees had tongues too short to reach the clover's pollen forming organs. These organs in red clover are hidden deeply in the heart of the tubelike petals and they can only be fertilized by the long tongued bumblebee. If red clover is not visited by bumblebees, who bear the golden pollen grains from one blossom to another, it never seeds—it cannot be grown. The scientist, aware of the fact, soon put his finger on the barren Australian clover's trouble. He imported a lot of long tongued bumblebees. These bees flourished, and immediately Australian clover, which had promised to be a failure, became one of the country's richest and finest crops."—Chicago Chronicle.

### Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists; price 50c.

### The Mantelpiece Bottle Experiment.

You find yourself on a picnic perhaps without a corkscrew and with a lot of bottles, all of them with corks in them. Hardly anybody knows what to do. The solution of the difficulty is, however, it seems, perfectly simple: "Place the bottle, cork downward, upon the edge of an ordinary mantelpiece, steadying it, of course, with the hand. Then with a slight impulse turn it so that it falls upon the ground on its base. Pick it up, and you will find that the cork has started. It is sometimes necessary to repeat the operation before the cork can be withdrawn with the fingers. A first experiment with a full bottle of water tightly corked is advisable. A fall direct from that height will have no desirable result."

The present writer can testify to the efficacy of this "minor art." He had, it is true, to arrange his picnic in an ordinary room so as to have the mantelpiece handy. But there was no difficulty after turning the bottle on its base, "with a slight impulse," in extracting the cork from the ruins. There was no need to repeat the operation.—London Spectator.

### May Weddings.

May weddings are supposed by many persons to be unlucky. It is a heritage from the ancient Romans. A May bride, says Ovid, is short lived, his explanation being that the month included the celebration of the Lemuria in honor of the dead. Apart from any evil omen, such a time of mourning would interfere with the bathing and toilet arrangements that were proper preliminaries to weddings. Plutarch suggests that, as April was the month of Venus and June that of Juno, to select May was to slight those nuptial goddesses and that June, as the month of the young (juniores), was preferable to May, the month of the old (majores). Ovid's "Mense malas maio nubere vulgus ait" (there is a popular saying that wicked women wed in May) was inscribed on the gate of Holyrood when Mary, queen of Scots, married Bothwell in May, 1567. What followed strengthened Scottish belief in May's unluckiness.

### The Term "Crony."

Every one uses the term "crony" in the sense of "chum" or "pal," and the phrase "old cronies" has become specially familiar, but it is doubtful whether the original word bore any reference to friendship. The new English dictionary puts down its origin to academic slang and quotes the immortal Pepys for the earliest instances of its use. Quite recently, however, an old letter of a still earlier date has come to light, in which a scholar is described as "content to destroy his body with night labors and everlasting study to overtake his chronyes and contemporaries." From this it would seem clear that the word was a bit of university jargon, used to denote students of the same date and coined from the Greek word that appears in the terms "chronology," "chronometer," "chronograph," that are connected with time.

### Sheridan's Trap.

Any interruption while he was making a speech always caused Richard Brinsley Sheridan considerable annoyance. On one occasion the dramatist showed his displeasure of a fellow member of the house of commons who kept crying out "Hear, hear" every few minutes. During a certain debate Sheridan took occasion to describe a political contemporary who wished to play rogue, but had only sense enough to act fool. "Where," exclaimed he, with great emphasis—"where shall we find a more foolish knave or a more knavish fool than he?"

"Hear, hear," was shouted by the troublesome member.

Sheridan turned and, thanking the honorable member for the prompt information, sat down amid a general roar of laughter.

### Tactful.

Mrs. John Sherwood was as famous for her exquisite nature as for her fine style. At a dinner one night at the time when her novel "The Transplanted Rose" was having a wide circulation her neighbor turned and asked in perfect good faith the almost incredible question, "Mrs. Sherwood, do you know who wrote 'The Transplanted Rose?'".

"It sounds as though it might be Hardy," laughed the gifted woman without a trace of ill nature.—Woman's Home Companion.

### Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence county, N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

## GOLDFISH IN JAPAN.

**The Demand For Them Appears to Be Almost Without Limit.**

Although the goldfish occurs in a wild state in Japan, it is probable that China some 400 years ago furnished the stock from which the wonderful varieties of Japanese goldfish have been bred. It is reported that in feudal days, even when famine was abroad in the land and many people were starving, the trade in goldfish was flourishing.

The demand at present appears to be without limit, and the output shows a substantial increase each year. Many thousand people make a living by growing goldfish for market, and hundreds of peddlers carry the fish through the streets and along the country roads in wooden tubs suspended from a shoulder bar.

The leading goldfish center is Koriyama, near the ancient capital of Nara. Here are 350 independent breeding establishments, whose yearly product runs far into the millions. One farm which I visited was started 140 years ago. At first it was conducted merely for the pleasure of the owner, but it eventually became a commercial enterprise and is now very profitable.—National Geographic Magazine.

### African Grosbecks.

The social grosbecks of South Africa live in large societies. They select a tree of considerable size and literally cover it with grass roof, under which their common dwelling is constructed. The roof serves the double purpose of keeping off the heat and the rain, and 400 or 500 pairs of birds are known to have the same shelter. The nests in this aerial dwelling are built in regular streets and closely resemble rows of tenement houses.

### Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all druggists.

### HAD A HARD FALL.

**E. C. McMahan, the Contractor, Quite Badly Injured.**

While at work on the chimney of the new residence of D M. Dean at the corner of Franklin and East Church streets, Monday forenoon, E. C. McMahan, the contractor, met with quite a serious accident.

He was at work on a scaffold building a chimney, and had the work well up to the ceiling of the first floor, when he stepped on the outer end of one of the boards he was standing on, which tipped up and let him drop. The floor was not laid and he fell in between the joists, receiving some pretty hard bumps. At first it was thought his arm and several ribs were broken, but an examination proved to the contrary, although the bruises were quite severe.

Medical attendance was summoned and Mr. L. T. Roux took Mr. McMahan home, where he was made as comfortable as possible. His two-foot rule, which he carried in the pocket of his overalls, was broken into pieces when he fell between the joists, and it is thought that had it not been for the rule his right leg would have been broken.

Although he only fell a few feet, the striking on the sharp edges of the joists resulted in removing large patches of cuticle, besides making some ugly bruises. He will be laid up for several days, but his many friends hope the fall will leave no permanent injuries.

### Gone to Kentucky.

On Monday morning Mrs. J. S. Goode, accompanied by Misses Addie and Lovey Goode and Master Ray Driver, left for an extended visit at their old home in Owensboro, Ky. They will spend the summer there and expect to return to Gainesville in September. Mr. Goode will remain here during the summer and continue the management of the Magnolia Hotel, which they have conducted so successfully.

### From St. Lucie County.

One of the first crates of pineapples ever shipped from the new county of St. Lucie was received by Editor McCreary of this paper yesterday. They came from his old friend, Capt. J. F. Tucker of Fort Pierce, and are the choicest of Florida fruit, which is not surpassed anywhere on the globe. We assure the genial Captain that such very choice fruit is highly appreciated.

### Will Celebrate.

The Sun has been asked to tell its readers that the people of Grove Park and vicinity wil celebrate the Glorious Fourth of July with a picnic at Magnesia Springs, to which all are invited who desire a good time.

The patriotic citizens of North Gainesville will also be up and doing, and will have a big time on the Fouth. Particulars later.

### Goes to Boston.

Miss Ethel Webster, who has accepted the position of teacher of elocution and physical culture for the ladies' department of Stetson University, expects to go to Boston the first of July to attend the summer session of the Emerson School of Oratory. Miss Webster is a young lady of high attainments in her profession and will be prepared for her work on her return.

### Notice to Water Takers.

The water rents for the quarter ending September 30th, 1905, will be due and payable to T. B. Ellis, collector of revenue, on or before July 10th, 1905. The rules regarding the cutting off of water and turning on the same will be rigidly enforced by recent order of the City Council, if not paid at the proper time. J. M. Dell, City Clerk.
